

# HI-TEN 98 R

The new HI-TEN is the result of all our experience and is designed to win. The racquet head has been enlarged to maximize the impact area for groundstrokes and increase stability.

We increased the horizontal string length in the middle area and the spacing between the horizontal strings at the top of the racquet resulting in more spin and power. We have lengthened the racquet shafts to increase flexibility, dwell time, and overall accuracy of strokes.

## HI-TEN 98 R

Length 27"

Head Size 98 in<sup>2</sup>

Sections 21 mm constant beam

String Pattern 16 x 19

RA 59

## UNSTRUNG SPECIFICATIONS

Weight 310 g

Balance 310 mm

swing weight 285 kg/cm<sup>2</sup>

## SUGGESTED STRING

-  Full Black Beam  
for aggressive play
-  Full Yellow Beam  
for extra power and feel
-  Full White Beam  
for softer feeling

Designed

*versatile*

# Grinta 98 tour

For all the attackers, allcourters, hold your horses, this is your page! A control ellipse frame with an enlarged 3/9 area and longer central cross strings for extra ball spin.

Its bionic x-section makes sure you have enough stability on the lateral spin shots. A 16 x 19 string pattern with larger spacing of cross strings in the upper half of the frame to give you extra spin.

## GRINTA 98 TOUR

string pattern 16 x 19

## UNSTRUNG SPECS

weight 310 g

balance 315 mm

sw. weight 290 kg/cm<sup>2</sup>

## IS THIS MY FIT?

- Are you an **advanced player** with a long and fast swing with either attack or all court style?
- Do you **hit the ball in its rising trajectory** close to the bouncing point? Need extreme spin?
- Both boxes are crossed? Nice! Then there is one thing left to do: **choose the racquet weight.**

## SUGGESTED STRING

-  Full Black Beam for aggressive play
-  Full Yellow Beam for extra power and feel
-  Full White Beam for softer feeling

Extreme spin and **precision** for champions

*precision*

# Grinta 98 tour lite

For all the attackers, allcourters, hold your horses, this is your page! A control ellipse frame with an enlarged 3/9 area and longer central cross strings for extra ball spin.

Its bionic x-section makes sure you have enough stability on the lateral spin shots. A 16 x 19 string pattern with larger spacing of cross strings in the upper half of the frame to give you extra spin.

## GRINTA 98 TOUR LITE

# Grinta 100 jr

A full carbon composite control-oriented junior racket. The 25" and 26" version of the Grinta 100, equal technical features, made with the same high-quality materials.

The junior player enjoys the same feeling of the adult frame in a shorter, lighter and more manoeuvrable version.

## GRINTA 100 jr 26"

string pattern 16 x 18  
**UNSTRUNG SPECS**  
 weight 265 g  
 balance 318 mm  
 sw. weight 238 kg/cm<sup>2</sup>

## GRINTA 100 jr 25"

string pattern 16 x 18  
**UNSTRUNG SPECS**  
 weight 258 g  
 balance 306 mm  
 sw. weight 212 kg/cm<sup>2</sup>

### IS THIS MY FIT?

- Are you up to 12 years old and a beginning or competitive young boy or girl?
- Is your trainer suggesting you need a racquet with a lot of control to practice on spin shots?

### SUGGESTED STRING

-  Full Sunny Core to maximize arm protection
-  Full White Beam for extra spin, soft feeling, still aiming at an aggressive play
-  Hybrid White Beam (mains) with Sunny Core (crosses)

Extreme spin and **precision** for champions

*precision*

# Vitas 110

Are you a leisure player searching for the maximum power and comfort? You cannot miss a hit with our Super Oversized power pentagon frames, with an enlarged string bed area in the upper half and at 3/9 o'clock. Very light and maneuverable racquets with a large sweet spot, combining extra power with a smooth and comfortable feeling.

Bionic x-section for additional stability on volleys. SSG applied at 3/9 with an embedded elastomer at 6 o'clock to maximize comfort.

## VITAS 110

string pattern 16 x 18

## UNSTRUNG SPECS

weight 270 g

balance 340 mm

sw. weight 288 kg/cm<sup>2</sup>

## IS THIS MY FIT?

- A short swing, hitting flat, playing doubles, not just singles?
- Do you search for light, powerful and super stable frame with soft feeling?

## SUGGESTED STRING

Sunny Core for the best comfort and ball speed

The fastest and most **versatile** racquet
